- Web API 2, ASP.NET MVC4, .Net Framework 4.5, Web Forms, C#4.5
- CSS, HTML, Bootstrap, SASS, PrePros
- Knockout.js, JavaScript, jQuery, JSON, Ajax
- SQL Server 2012, T-SQL
- Visual Studio 2015, Team Foundation Server, Git

## WORK EXPERIENCE

---

### Application Developer

**Sharphat, Inc** - Englewood Cliffs, NJ  
October 2017 to September 2019

Developed front- and back-end components of web applications for external clients such as the National Football League and Canadian Football League using Web API, MVC, T-Sql, Knockout.js, etc. Work experience include:

- Converting a Web Forms/VB application to Web API/C#/Knockout.js
  - Retrieving player injury data from SQL and displaying them in Crystal Reports
  - Displaying real-time game statistics using XML, SignalR and Knockout.js
  - Developing address-resolution features using Google Places API
  - Uploading and downloading files, creating server images and instances, and remotely starting new servers in AWS Amazon EC2
  - Reading employee productivity metrics from SQL and the Atlassian JIRA ticketing system and displaying them as interactive charts using Highcharts JavaScript library
  - Developing with .Net libraries such as Dapper and NLog
- 

### Application Developer

**Decusoft** - Ramsey, NJ  
January 2017 to August 2017

Worked as part of a team developing a commercial enterprise web application for compensation management. Work experience include:

- Displaying real-time charts on the front-end with drill-down and filtering functions using the Highcharts JavaScript library.
  - Generating an Excel spreadsheet with real-time compensation data based on the user's data authorization using Infragistics JavaScript library.
  - Migrating application from Web Forms to Web API and Knockout.js
  - Developing with Sammy.js, AmplifyJS, Coffeescript, SourceGear Vault, Jenkins Continuous Integration
-

## **Application Developer**

**LanguageWorks, a division of Ubiquis** - New York, NY

February 2006 to May 2016

Progressively transitioned from a Lotus Notes developer role into .Net development over several years. Projects worked on include:

- Web Forms-based order-entry web application for clients that interfaced with legacy application. Later converted application to .Net MVC.
- Billing web application for third-party vendors.
- The LanguageWorks company website.
- Middleware tools that converted files from one format to another
- Programs for migrating data from Lotus Notes to 4D platform
- Developing Visual Studio Tools for Office (VSTO) plugin for Outlook
- Provided desktop and server support to local and external employees and partners

Used C#, MVC 4, Web API 2, Entity Framework 5, SQL Server 2008, jQuery, JavaScript, CSS, Ajax, JSON, WCF/web services, Web Forms, Subversion, Visual Studio Tools for Office, Microsoft Outlook, NUnit

---

## **Lotus Notes Developer**

**JPMorgan Chase & Co** - New York, NY

January 1999 to November 2005

Designed, developed and tested applications using Lotus Notes/Domino, LotusScript, JavaScript, HTML, etc.
